SUMMARY

Mathematics student at SUST with a passion for bridging abstract mathematical concepts with practical software development. Experienced in full-stack development, numerical analysis, and algorithm optimization. Seeking to apply analytical problem-solving skills and technical expertise to challenging projects in software engineering or scientific computing.

EDUCATION

- **Shahjalal University of Science and Technology (SUST)** *B.Sc. in Mathematics* Expected 2025
 - 3rd year, 2nd semester student with focus on numerical analysis, abstract algebra, and differential equations
 - Maintaining strong academic performance while pursuing independent software development projects
- **Murari Chand College** *Higher Secondary Certificate* 2021
 - Completed HSC with focus on Science, building foundation for advanced mathematical studies
- **Jobed Ali Secondary School** *Secondary School Certificate* 2019
 - Completed SSC in Science group, developing early interest in mathematics and logical problem-solving

TECHNICAL SKILLS

- **Frontend:** React, Next.js, TypeScript, JavaScript (ES6+), Tailwind CSS, HTML5/CSS3
- **Backend:** Node.js, Express, Python (Flask), Go (learning), RESTful APIs
- **Mobile:** React Native, Expo, Cross-platform development
- **Scientific Computing:** C++, Fortran, MATLAB, LaTeX, Numerical Analysis
- **AI/ML:** Gemini API, OpenAI API, Prompt Engineering
- **Databases:** MongoDB, PostgreSQL, Firebase
- **DevOps & Tools:** Git, GitHub, Docker, Vercel, Netlify

FEATURED PROJECTS

- **PyNum Studio - Interactive Numerical Analysis Platform** 2024
 - Developed a Python library implementing root-finding, interpolation, and numerical integration methods
 - Built an interactive web interface with React and Flask for real-time visualization of mathematical concepts
 - Packaged and documented for PyPI release; used by students for learning numerical methods
- **OrthoBudget - Specialized Finance App** 2024
 - Created a React Native mobile app for orthodontic residents to track expenses and loan payments
 - Implemented secure data storage with Firebase and custom calculators for medical finance scenarios
 - Designed intuitive UI specifically tailored for healthcare professionals
- **ZincCalcPro - Advanced Scientific Calculator** 2023
 - Built a feature-rich calculator web app with expression history and unit conversions
 - Implemented complex state management for handling multi-step calculations
 - Optimized for performance with vanilla JavaScript and modular architecture
- **Personal Portfolio - shahaduddin.com** 2023

- Designed and developed responsive portfolio using Next.js and Tailwind CSS
- Implemented smooth animations with Framer Motion for enhanced user experience
- Achieved 95+ Lighthouse scores for performance and accessibility

EXPERIENCE & INVOLVEMENT

- **Open Source Contributor** *GitHub* *2023-Present*
 - Contributed bug fixes and feature enhancements to scientific computing libraries
 - Collaborated with global developers through code reviews and pull requests
 - Improved documentation for several mathematics-focused open-source projects
- **National Undergraduate Mathematics Olympiad** *Participant* *2023*
 - Competed in national-level mathematics competition, solving advanced problems in number theory and combinatorics
 - Demonstrated strong analytical thinking and problem-solving under time constraints

ADDITIONAL INFORMATION

- **Languages:** Bengali (Native), English (Professional working proficiency)
- **Interests:** Algorithmic puzzles, contributing to math education, reading about computational theory
